

Tenderer's Technical Questionnaire (Note 3)

A technical questionnaire is to be provided by the Economic Operator in response to the Technical Specifications. The submission shall be in a structured form and is to be in the same sequence as listed hereunder for ease of reference and evaluation.

Failure to duly submit the information requested hereunder will result in disqualification of the offer. Bidders must include this form as part of their technical offer in addition to the Tenderer's Technical Offer. The technical questionnaire falls under Note 3 (No rectification is allowed). In this regard, the information/technical specifications provided in the below table shall not be subject to rectifications. Therefore, bidders that fail to complete in full, duly sign, submit the requested information will be deemed as non-compliant and will result in disqualification of their offer.

Where in this tender document a standard is quoted, it is to be understood that the Contracting Authority will accept equivalent standards. However, it will be the responsibility of the respective bidders to prove that the standards they quoted are equivalent to the standards requested by the Contracting Authority.

The items being offered in must be in conformity with the specifications requested under Section 4 - Technical Specifications, the Financial Plan and any Drawings issued.

The Technical Questionnaire shall constitute the following:

1. Statement of Compliance of the items offered

For each item to be supplied the bidders have to confirm that they are in a position to supply the requested items in full conformity with specifications as listed in Section 4 of the Terms of Reference, or better, provided as well as for the quantities required. A YES or NO answer needs to be provided for each item, together with possible comments, where applicable and the brand of the respective line item.

Item	Description	Compliant Y/N	Comments	Brand
A.	VRF outdoor units (compact type)			
B.	Indoor units (high-wall type)			
C.	Split type system (outdoor and indoor unit)			
D.	Refrigerant pipework			
E.	U-PVC drain pipes			
F.	Closed cell insulation including UV protection			
G.	AC central controller			
H.	Galvanised steel cable trays complete with cover			
I.	Rubber support system for cable trays			

J.	Wall mounted dehumidifier including controls			
K.	Cables			
L.	Distribution boards and switchgear			
M.	Moulded accessories (fused spur outlets, cord outlets, switch disconnectors, etc)			

Note: Tenderer's shall not be allowed to change or alter the brand of material and/or equipment as submitted in the technical questionnaire above during the implementation phase of the project.

Furthermore, bidders shall submit draft method statement on how the environment control system will installed, tested, commissioned and operated. This submitted method statement shall not bind the Contracting Authority to use the submitted method statement but may serve as a benchmark on how the system shall be installed, tested commissioned and operated.

Declaration:

I/We declare that as part of our Technical Offer as provided in this Technical Offer and in the Technical Questionnaire, we confirm that the items to be supplies are in line with the Technical Specifications (Section 4), as detailed in the Financial Plan and as per Drawings.

I/We confirm that the literature that will be requested by the representative of the Contracting Authority will be submitted to the Contracting Authority prior to ordering and/or purchasing any materials and/or equipment, for the approval of the Contracting Authority. It is understood that the Contracting Authority has the right to reject the equipment and/or material being proposed and may request alternatives to be submitted and such change is done at no additional cost to the Contracting Authority.
